WHITEPAPER

We invite you to share on social media using #edge23 #gbef

Dear EDGE23 Attendee:

The pandemic is more or less behind us, and the government is funded and working. Yes, we face major challenges here at home and around the world, but this is a New Year and there is a great opportunity for a stronger Nation and a more stable world as well.

You are one of 400 attendees who through your work can contribute, in some way, to a stronger country and better world. Together, you represent 27 US Federal departments and agencies, four NATO partner nations, multiple state, and local jurisdictions, and nearly 100 of technology's most innovative companies.

This agenda is designed to make you think, encourage you to participate, and enable you to build important bridges with your government and business peers that extend well beyond the conference adjournment this Sunday.

This is EDGE23@CES, and we are glad you are here.

And thank you for Being Part of Something Bigger!
